## The 5th floor of Terminal 1, including the Observation Deck, will be renovated!

The 5th floor area (and part of the 4th floor area) of Terminal 1 at Narita Airport, including the Observation Deck, will go through renovation work.

This renovation project aims to provide a new value of "Enjoying your stay" at Narita Airport, the aerial gateway of Japan, under the theme of "Abundant water and the changing four seasons that nurture Japan's culture and spirituality."

We will steadily promote the renovation project towards the start of service in the spring of 2026, aiming to provide more convenience and comfort to our customers.

### Current state

Right photo: Inside the building (5th floor of the Central Building)

## Renovated under the theme of "Abundant water and the changing four seasons that nurture Japan's culture and spirituality"!

### Artist's impression of the renovation

#### Observation Deck

Comfortable space surrounded by rippling water, greenery, and seasonal flowers

Lawn area

Wood deck

#### Seating space inside the building

Space to enjoy staying in a Japanese atmosphere

Tatami area

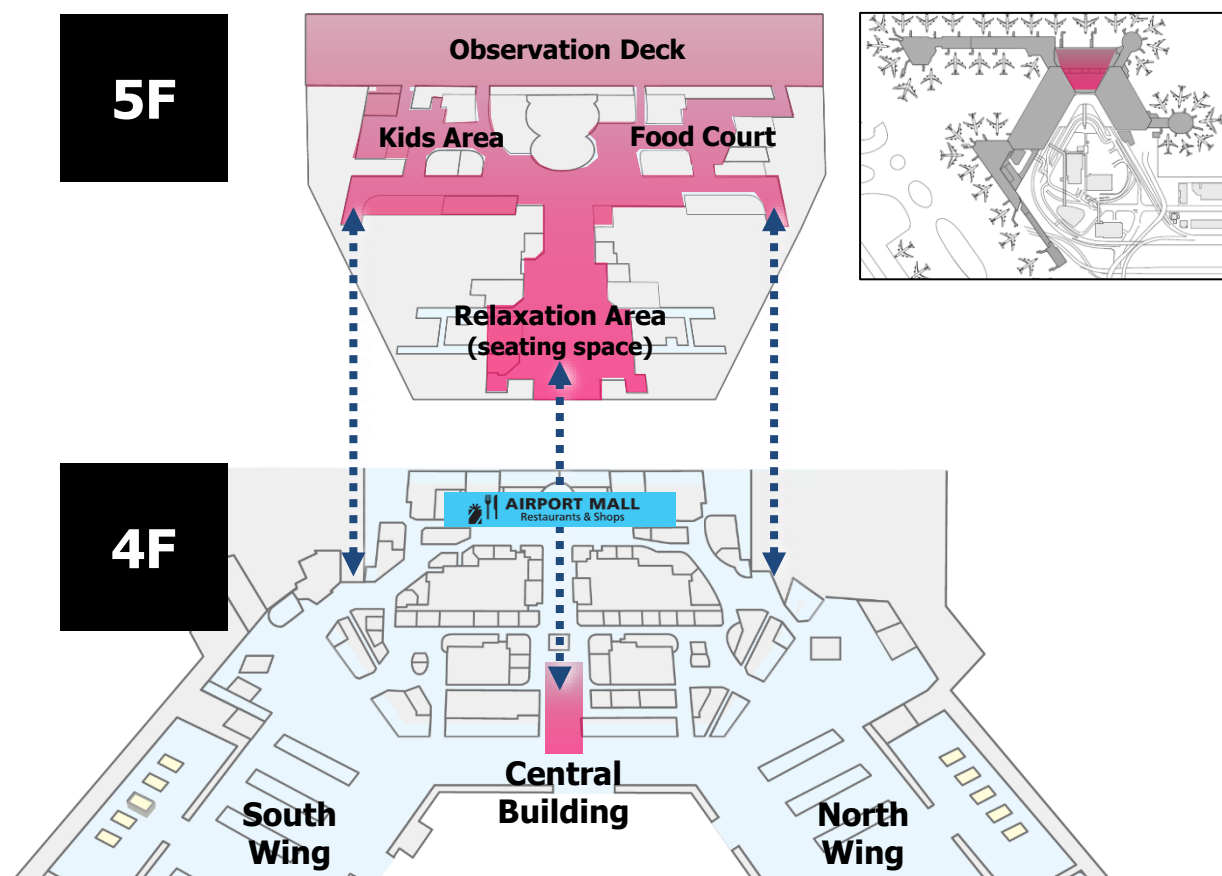

Tea Room

<Area to be renovated>

The 5th floor and part of the 4th floor of the Central Building of Terminal 1

Renovation area  : Approx. 8,000m<sup>2</sup>

<Schedule>

Construction starts in April 2025, and service is scheduled to start in the spring of 2026

<Other>

- According to the renovation project, the Observation Deck of Terminal 1 will be entirely closed from April 7, 2025, to the start of service in the spring of 2026.  
\* Restaurants, stores, and the lounge in the 5th floor area are open as usual.
- During the construction period, the installation of temporary fencing may result in narrower paths or areas where passing through is not possible. Please follow the information on the on-site guidance and signboards.
- We apologize to our customers at Narita Airport for the inconvenience caused by the renovation project. Thank you for your understanding.
