Jetstar Japan to launch a new flight operation on the Narita-Hong Kong route on February 13, 2026!

Jetstar Japan (IATA code: GK) will launch a new flight operation on the Narita-Hong Kong route on February 13, 2026!

This route marks the airline's first operation in about six years, bringing the total number of its international routes operating to and from Narita Airport to five, which is the highest number ever for Jetstar. This newly launched flight departs Narita Airport at night, which not only allows the residents in Hong Kong to enjoy a longer stay in Japan but also provides greater convenience to those in Japan, such as those who depart Japan after work.

Hong Kong is a cosmopolitan city where visitors can enjoy night views, gourmet cuisine, and events, while also experiencing growing attention to diverse art in recent years. With this Jetstar Japan's launch of the route, access to Hong Kong with abundant charm has become more convenient.

We invite you to take this opportunity to experience the enhanced network at Narita Airport.
