**Air Niugini to launch the Narita-Port Moresby route
on July 18, 2026!**

Air Niugini (IATA code: PX) will launch the Narita-Port Moresby route on Saturday, July 18, 2026!
As Papua New Guinea’s national flag carrier, the company serves as the only airline connecting Japan and Papua New Guinea.
In Papua New Guinea, a country blessed with untouched wild nature, you can enjoy not only marine activities, such as diving, but also observing the plants and animals, such as birds-of-paradise and orchids, that inhabit the tropical rainforest. In addition, the diverse ethnic cultures, including traditional costumes and dances, that are unique to this multi-ethnic nation, home to over 800 ethnic groups, are another major attraction.
Furthermore, this route serves as a “new hub” for travelers departing from Narita Airport to the South Pacific region. In particular, you can connect on the same day to Australia, the Solomon Islands, or Fiji.
We invite you to take advantage of the enhanced network at Narita Airport with this new launch of Air Niugini.
