STARLUX Airlines to launch a new flight operation on the Narita-Taichung route on March 30, 2026!

STARLUX Airlines (IATA code: JX) will launch a new flight operation on the Narita-Taichung route on March 30, 2026. STARLUX Airlines is a full-service carrier from Taiwan that offers high-quality services with its aircraft equipped with state-of-the-art devices and comfortable facilities. It will become the only carrier that connects the Tokyo metropolitan area and Taichung with direct flights.

Taichung, located in the midwestern part of Taiwan, is the second-largest city in Taiwan. It holds visitors' attention with well-balanced attractions of the city, nature, and culture. The cityscape, where clusters of many high-tech industry buildings are surrounded by abundant greenery, is a must-see. At Gaomei Wetlands, extending across the beach, fantastic scenery is created at sunset by the reflection on the water surface. If you visit the Fengjia Night Market, you can enjoy typical Taiwan gourmet foods, such as Lu Rou Fan (braised pork rice) and tapioca milk tea, at reasonable prices until midnight.

The launch of the Narita-Taichung route will expand the ways to enjoy Taiwan, enabling not only sightseeing in Taichung but also combined itineraries with routes such as STARLUX Airlines' Taipei route, which operates 3 flights every day. We invite you to take advantage of the enhanced network at Narita Airport.
