## Bamboo Airways Launches New Narita - Hanoi Service on 25 January 2022!

Bamboo Airways (IATA code: QH) launches a new Narita - Hanoi service on 25 January 2022. This is the first commercial flight connecting Japan and Vietnam of Bamboo Airways, which will hit a milestone in its network expansion.

Bamboo Airways is an emerging Vietnamese airline that began operations in January 2019, offering customers "more than just a flight" with competitive prices and friendly service.

Narita Airport will continue to expand its network in order to provide even greater convenience to customers. With the launch of the Hanoi route by Bamboo Airways, we hope customers will take advantage of the enhanced network.
